Experience

- **Neusoft Corporation** — Shenyang, Liaoning, China

  Software Engineer — *July. 2009 – Mar. 2012*
  - Founded QuickReport project, which increased 700% work efficiency and saved more than 2 million US dollars for company. (C#, SQL, Oracle)
  - Developed transaction, storage and medical modules for Hospital Information System. (C#, SQL, Oracle)
  - Designed the database structure and created corresponding operation SQL for the modules. (C#, SQL, Oracle)
  - Analysed the requirements from the customers, communicated effectively with development teams.

- **Neusoft Corporation** — Shenyang, Liaoning, China

  Software Engineer Intern — *Oct. 2008 – May. 2009*
  - Tested the commercial product of H.I.S., tracked the bugs from bug report system.
  - Wrote the commercial operation handbook for H.I.S..

Projects

- **QuickReport**

  Founder
  - QuickReport is a visual designer for report development. By converting the UI design & SQL into XML and generating the report base on the XML at the running time, QuickReport achieves a 700% work efficiency increase without writing a single line of C# code.
  - QuickReport has been put into use in more than 500 hospitals nationwide. For more than 300 software engineers it has saved at least 440,000 hours, while saving the company more than two million US dollars in expenses till the end of year 2013.

Skills

- Languages: C#, Java, SQL; familiar with C++, Scala, JavaScript

- Software: Visual Studio, Intellij IDEA, Eclipse; familiar with WebStorm, NetBeans

- Databases: Oracle, SQLite, SQL Server, Microsoft Access; familiar with MySQL, DB2

- Tools: Git, SVN, VSS

Leadership

- **Tongxing Culture Media Co., Ltd** — Datong, Shanxi, China

  Co-founder & General Manager — *Oct. 2012 – Oct. 2014*
- **Huayitong Electrical Wiring Engineering Co., Ltd** — Hohhot, Inner Mongolia, China
